

The First Day

The school was big, really big
I didn't want to go
There were lots of kids, tall kids
Kids I didn't know

I saw some friends from primary
school
But only three or four
How many kids were in this school?
A thousand, maybe more!

They gave us all a timetable
And told us where to go
There were lots of different subjects
Some, I didn't know

There were lots of different
teachers
That was very strange
We didn't stay in one room
Instead, we had to change

We went to different classrooms
All around the school
No running in the corridor
They told us was the rule

I felt afraid and worried
I felt excited too
Everything was wonderful
Everything was new
